

Do you use drugs? Which ones? How much? How often? Tell us about it!
Anonymous survey, secure and quick.

The European Monitoring Centre for Drugs and Drug Addictions (EMCDDA) has developed this online survey to gather information on the **patterns of drug use in the EU**, in particular how often people use various drugs, how they take them, and the amounts used. Several countries have already conducted the survey. In collaboration with the EMCDDA and the "Direction de la Santé", the National Focal Point for Drugs and Drug Addiction in Luxembourg participates in this European survey to obtain a **more detailed picture of the drugs used in Luxembourg**. For a realistic picture, we need your help. If you have used drugs in the past year and are above the age of 18, we would greatly appreciate your input, even if you have used them only once or twice. To participate, please scan the QR code or go to <https://drugusersurvey.limequery.com/index.php/146788/lang-en>

Thank you in advance for your participation!
