FIT 4 START #13: SELECTED COMPANIES

Digital/data-driven

2AM – Advanced Materials & Additive Manufacturing Latvia www.2am.lv	Robotic 3D printing of large-size rocket structures from high-performance Aluminum-based MMNC. This method and material can replace the current manufacturing method and improve the buy-to-fly ratio.
DèsVu Stays Luxembourg	Our corporate accommodation platform connects housing providers worldwide with multinational companies, reducing the highly fragmented booking process from 24-48 hours down to a few minutes.
DPhi Belgium https://dphi.tech/	AI is transforming the world. But AI awareness and development remain a challenge, with >85% of projects failing to drive impact. With its thriving 100K+ AI community, DPhi addresses these problems by educating and building AI for everyone.
Eyrene USA https://eyrene.com	AI SaaS for retail audits.
Fundis ESG Luxembourg www.fundvis.org	Fundvis develops digital ESG workflows and implements them into the daily Fund management processes, by creating a granular approach that guides the companies thru this evolution and makes ESG compliance effortless.
Gonuggets Luxembourg www.gonuggets.co	Gonnuggets leverages AI for digitally native brands (DNB) to grow their multi-channel e-commerce reach and revenues, without scaling up complexity and risk.
Stargate RTK Estonia https://stargate.prns.io	GNSS correction service provider for precise cm-level positioning and navigation for autonomous driving, industrial drone, mapping and IoT applications.
U Impact Germany www.uimpact.earth	U Impact provides a B2B white-label tool built on two elements: a retail investor interface providing transparency on sustainable investments, and user behavioural data is captured and insights provided to B2B clients to increase fund inflows.

Warden Machinery Latvia www.warden.pro	We remove people from visual control of manufacturing processes in mining and steelmaking via computer vision-enabled solutions while increasing EBITDA of our customers and bringing significant ESG impact.
Wiretwin Luxembourg www.augment.lu	Wiretwin is an Integrated Virtual Twin of a facility allowing Property Management to save costs and resources, be more sustainable, and increase transparency.

Healthtech

Poly Diagnostics Ukraine www.polydiagnostics.com	We offer our products in an easy to use dry format with long shelf life. Our products enable customers to add the clinical sample directly and test for multiple pathogens, thus getting results 2-3 times faster and saving on energy and storage costs.
Posture AI Korea https://www.myposture.ai	Solve spinal problems with AI devices integrated into posture correcting products to relieve people of pain.
Surge France www.surge.care	Surge is developing innovative solutions for predicting post-operative complications. The proposed solution is a blood sample collection kit coupled with an artificial intelligence algorithm that integrates clinical and immune data.
VSPINE / MDSIM Belgium https://www.linkedin.com/in/rogerassaker/	V.spine will improve the quality of life of millions of people suffering from spine deformities by helping surgeon and medical device company develop, simulate, plan and perform optimal spine fusion surgeries.
Wavy Meet Luxembourg www.wavymeet.com	Wavy Meet allows patients to undertake cardiac rehabilitation programs without commuting to the hospital. Thus, healthcare providers can treat more patients, avoid relapses, reduce costs, and count on biometric data during and after the sessions.
