

LUXEMBOURG-IRELAND CO-DEVELOPMENT FUND FOR FEMALE AND NON-BINARY FILMMAKERS

**GUIDELINES
2023**

Luxembourg-Ireland Co-Development Fund for Female Filmmakers

The Luxembourg-Ireland Co-Development Fund for Female and Non-Binary Filmmakers (“Incentive”) is a collaboration between Film Fund Luxembourg (“FFL” or “Party”) and Screen Ireland (“Party”) (“FFL” and “Screen Ireland” collectively the “Parties”) to improve representation of female and non-binary filmmakers in the film industry and marketplace and to support women’s and non-binary people’s career development in audiovisual media and film in Luxembourg and Ireland. For the 2023 iteration of this scheme, projects that engage with new, emerging, and underrepresented voices will be viewed favorably by the assessment team.

The Parties wish to collaborate for the purposes of the Incentive for a period of one year, but reserve the right to modify these Guidelines prior to their possible renewal in 2024.

The total combined budget of the Incentive is €120,000 for 2023, with each party contributing €60,000.

The total maximum combined contribution for each funded development project (feature-length (min. 70’) fiction, documentary, animation, TV-Drama) is €40,000. The contribution of each country to selected projects will be determined on a case-by-case basis. The Incentive may be combined with funding from other programs of the FFL and Screen Ireland. However, the maximum contribution by either country in any one project is limited to 75% of eligible expenses for that country. The contribution is in the form of non-repayable contribution for development, unless the project goes into production. At that point, rules and regulations of FFL, respectively Screen Ireland, apply.

The purpose of the Incentive is to support the creation of new projects. However, projects that have already received funding from one of the Parties during a prior financial period may be eligible for the Incentive upon assessment.

Eligible projects must meet the following criteria:

1. The project is a co-development (feature-length (min. 70’) fiction, documentary, animation, TV-Drama). Television projects must be a dramatic series, animated series or animated feature film.
2. A co-development agreement and – schedule needs to be in place between the Luxembourg-based and the Ireland-based production companies at application stage. Projects co-developed with a third producer are also eligible if the Ireland and Luxembourg-based producers retain significant financial and creative control of the project (i.e. the third producer must not have more than 15% ownership or control of the project).
3. Applicants must hold the necessary rights to the material to be developed.
4. The project presents cultural content and has the potential to interest audiences in both countries and transcend national borders.
5. The co-producers must ensure that the project meets the criteria of the funding organization in their respective countries. In this regard, Irish applicants must meet the requirements set out in the [Screen Ireland Funding Guidelines](#), and Luxembourg applicants must meet the requirements of the *Loi du 22 septembre 2014 relative au Fonds national de soutien à la production audiovisuelle* and of the *Règlement grand-ducal du 4 novembre 2014 portant exécution de la loi du 22 septembre 2014 relative au Fonds national de soutien à la production audiovisuelle* as well as the rules and criteria of the *Documentation des règles relatives aux mesures incitatives* .

6. Projects submitted must comply with rules pre-established in the Agreement between the Government of Ireland and the Government of the Grand-Duchy of Luxembourg on Audio-Visual relations.

Types of project not eligible for funding include:

- Projects containing pornographic or racist material, or material condoning violence;
- Productions that aim to promote a specific organization and its activities;
- Products of a specifically commercial or industrial nature or primarily intended for promotional purposes;
- Catalogues or compilations of repurposed material presented without any new, value-adding original content;
- System software;
- Archival aggregation websites.

Selection Criteria and Process

Projects will be evaluated by a selection committee composed of representatives of FFL and Screen Ireland in potential collaboration with international experts.

Applications will be assessed in accordance with the evaluation criteria below. Furthermore, the selection committee will adopt a reciprocity approach in order to ensure a fair balance of investment provided by Ireland and Luxembourg and a fair balance between majority and minority projects between both countries.
