## **FANUC Investments in Luxembourg**

**Dec 10, 2015**

# ***European HQ Infrastructure Improvements***

## **Investment:**

- 2.600 K EUR

## **Objective:**

- Improve operational excellence of FANUC Europe HQ activities, including new IT server infrastructure, facility fire protection and power supply

## **Benefit:**

- Increase availability of ICT systems to >99,99% (24 / 7)
- Ensure European-wide ICT support for each of 16 local subsidiaries provided from one centralized resource team located in Echternach
- State-of-the-art technology in place to protect ICT systems aligned with ISO/IEC 27001

# *European HQ Infrastructure Improvements*

# ***European Warehouse Extension***

## **Investment:**

- 1.960 K EUR

## **Objective:**

- Extension of current Echternach facility

## **Benefit:**

- Moved more than 2500 pallets from external warehouses to a central point to be able to serve entire European demand with short transit times to each country
- Increase the availability of spare parts for our European customers
- Reduce customer waiting time by improve our ability to perform direct shipment to end customers (rather than via local subsidiaries as done previously)

# *European Warehouse Extension*

# *European Warehouse Extension*

# *European Repair Center Extension*

## **Investment:**

- 900 K EUR

## **Objective:**

- Refurbishment and extension of current Echternach facility

## **Benefit:**

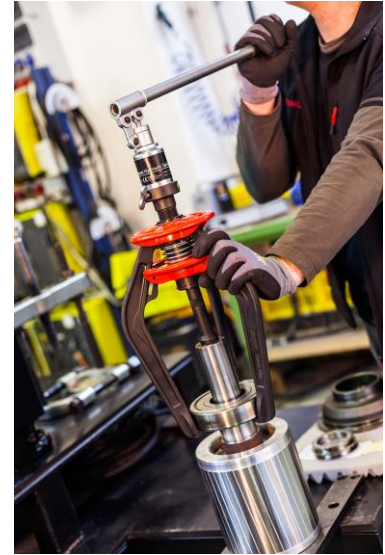

- Provide European customers with fast and efficient lifetime maintenance of all FANUC products, ensuring competitiveness of European production
- Extend the scope of locally available OEM repair for European customers from a Central European location
- Add and develop local technical resources with skill set training including latest technologies
